RAID ALLEGED 'TIGER' IN HOME

Police Find Seven Quarts of Whiskey in Trunk at Robert Johnson's House.

WHO WAS THE OPERATOR?

Court of Inquiry is Held This Afternoon to Determine Guilty Person—Two Arrests.

A raid on the home of Robert Johnson, colored, corner of Eighth and Cherry streets, this morning resulted in the arrest of Marshall Spurrier and Earl Green, both colored, after the police had found seven quarts of whiskey hidden in a trunk.

Just who was the operator of the alleged "blind tiger" is bothering the police and in an effort to obtain some information in order that the proper person may be indicted, a court of inquiry was being conducted this afternoon in police court. Green was the first witness before the inquiry court. The testimony was being taken down by a stenographer.

Johnson, at whose home the police found the two men, is in College Corner, Ohio, working for Wilk & Company, and the police intimated that Mrs. Johnson may have been the operator of the alleged "tiger." The police have received numerous complaints concerning the crowds that gathered at the Johnson home. The Johnson family lives in the south half of the double house at the corner of Eighth and Cherry streets. This morning word came to police headquarters that a "party" was in progress at the Johnson home.

Chief Rosencrance, Deputy Sheriff Sullivan and Prosecutor Stevens went to the place. Spurrier was very badly intoxicated, while Green was not in a bad condition, although he had been drinking. A third man had just left the place only a few minutes before the officers arrived. This man is said to have been Hughie Potter and he is being hunted by the police.

Spurrier was not so drunk but that he tried to escape. He was grabbed by Deputy Sheriff Sullivan and quickly downed. A search of the house was then made and it was some little time before the "boozie" was located. Two whiskey glasses were found on top of the trunk and when the trunk was opened the seven quarts of whiskey were found. Mrs. Johnson was very much enraged at the police raiding her home and called them robbers. The neighbors told the police that men had gathered at the Johnson home frequently.

The court of inquiry is expected to reveal the keeper of the alleged "tiger." A razor was found in the overcoat pocket of Green, but he did not offer any resistance to the police.

FRATERNALISM WARMLY PRAISED

Speakers at Odd Fellows Meeting Give Opinion That Such a Spirit Would Have Prevented War.

MONSTER TORCHLIGHT PARADE

Grand Patriarch Fulling Makes Chief Address and James E. Watson Responds For Class.

The spirit of fraternalism, not only as exemplified by Odd Fellowship but by other orders, was warmly praised Thursday night at the public meeting following the district session of Odd Fellows and the belief was expressed that if such a spirit of brotherly love had been paramount in Europe as it is in the United States, there would have been no great conflict.

The principal address was made by H. F. Fulling of Booneville, grand patriarch, and the response for the class of twenty-eight who were initiated into the subordinate lodge Thursday afternoon was made by James E. Watson, who was a member of the class.

The Graham Annex auditorium was partially filled for the meeting, but what the crowd lacked in size was made up for in enthusiasm, which frequently was given expression to by loud applause when the tenets of the I. O. O. F. were lauded. Several grand officers and past grand officers responded with brief remarks.

The address of welcome was delivered by J. T. Arbuckle, grand master, of this city. He praised in high terms the merits of Rushville and asked the visitors to observe what a beautiful city they were sojourning in. He expressed the heartfelt thanks of Franklin lodge and other residents of the city for the attendance of the many high officers of the lodge.

Grand Patriarch Fulling took opportunity to say a few nice things about Rushville, pausing long enough to observe that he had had a glimpse of this city's beautiful homes and business buildings and that he was very favorably impressed. He also said the torchlight procession was the biggest and most magnificent parade he had ever seen in a city of this size.

The torchlight procession was a monster demonstration for Odd Fellowship. There were approximately one thousand Odd Fellows in line and about about fifty automobiles. Red fire was carried by each marcher as they came, four abreast, down the Main street hill. The parade was led by Samuel L. Trabue, grand marshal, astride a horse. Following was the Odd Fellows band of this city and a company of Patriarch Militants of Indianapolis. The Shelbyville military band led the Shelbyville delegation and the Arlington band the automobile division of the procession.

"This order of which we are so proud," said Grand Patriarch Fulling, "was instituted a little over 96 years ago in Baltimore by five men. Thomas Wylie was the principal mover and to him Odd Fellowship owes more than to any other individual. He did not come from the nobility, neither did he come from the sum of the earth, but from the great middle class. And the fact that the order sprung from the common people has made its objects and principles appeal to the great mass of the middle class.

"Its membership of approximately two and one-half millions extends all over the world. The sun never sets on Odd Fellowship. Anywhere in the world you may find them.

CONFESSION IS PRIEST'S TOPIC

Rev. Bertrand L. Conway, Asserts Practice Originated Before Thirteenth Century

GOD PROVIDES TWO REMEDIES

Men May Gain Eternal Life by Grace of Baptism And by The Remedy of Penance

The lecture by the Rev. Bertrand L. Conway, C. S. P., on "Confession" at St. Mary's Catholic church last evening was largely attended. Father Conway in his discussion of the sacrament of penance, or confession, said in part:

"It has frequently been stated in controversial discussion on the confession of sins, that this practice originated in the thirteenth century, and was unknown in the early days of Christianity. It is my intention tonight to call your attention to a few testimonies of the early fathers on this point, none of which is older than the fifth century.

"St. Leo the Great, famous even in secular history because of his well-known meeting with Attila, the barbarian, was a great lover of tradition, and a pope who spoke continually against the doctrinal novelties of his time. He writes: (Epistle 108.)

"I will tell you that the ecclesiastical law prescribes concerning the condition of penitents. God in His abundant mercy has provided two remedies for the sins of men. They may gain eternal life, not only by the grace of baptism, but also by the remedy of penance. Those who have violated the vows of their baptism may obtain the remission of their sins by condemning themselves: the divine goodness has so decreed that the pardon of God can only be obtained by sinners through the prayers of the priests. Jesus Christ Himself, Mediator between God and man, has conferred upon the rulers of the church the power of imposing canonical penance upon sinners who confess their sins, and of allowing them to receive the sacraments of Christ, after they have purified their souls by a salutary satisfaction. It is dangerous for a weak and ignorant man to defer his conversion to the last uncertain hours of his life when he may be unable to confess and obtain priestly pardon; he ought, when he can to merit pardon by a full satisfaction for his sins."

"St. Augustine (354-430) in one of his sermons, CCXSV, declared that independently of the church, no sins were forgiven, for she has received from Jesus Christ the power of the keys to retain or remit sin."

"At Milan, St. Ambrose (340-397) in his treatise on Penance (Book 11, Chap. 2, No. 7), declares 'the priests alone have the right to pardon sins and biographer speaks of the great care he always manifested in guarding the secret of the confessional, like the clergy of our own day.

"Many out side the Catholic church who are acquainted with the fact of our early penitential discipline, maintain that the pardon granted by the church was a mere external reconciliation of penitents with the visible body of the faithful. In no sense they tell us, did it mean pardon of one's sins by Almighty God. This is simply not the fact. The men who held that doctrine in the early days of the early church were heretics, known at Novatians. Like the modern Protestant or the old time Pharisee in the time of Jesus, they declare that God alone could pardon sins, and restore again the divine life to the soul. Listen

KING MEANS TO DEFY WAR PARTY

Greek Ruler Will Still Fight War, According to Indications of Dissolution of Parliament

WILL KEEP OUT VENIZELOS

(By United Press.)

Athens, Nov. 5.—King Constantine apparently means to defy the Greek war party. Indications today were that the king would dissolve parliament, thus preventing the return to office of Ex-premier Venizelos the war party leader.

The king today appointed General Yanakitsa his aid-de-camp, thus indicating his approval of the attitude of the general whose defiance of Venizelos brought on the cabinet crisis.

The press and the politicians agreed today that the king would probably dissolve parliament. The result would be that Zaimis, though he has resigned, would hold over for at least two months, and that Greece would remain neutral for that time at least.

PAYS MONEY SON GOT BY FORGING CHECKS

John Hodson Today Settles Judgment Frankfort Banks Received After Arrest of Orville.

RECALLS SPECTACULAR CHASE

(By United Press.)

Frankfort, Ind., Nov. 5.—John Hodson, father of Orville Hodson, the spectacular check forger now in Jeffersonville reformatory today paid into banks \$3,595, thus making good the amount his son obtained from two local banks by forgery.

Hodson was arrested in Pittsburgh. His term in Jeffersonville is from two to fourteen years.

Young Hodson led officers a merry chase from Indianapolis to Louisville and then down into Mexico, up the west coast, and across to New York and back to Pittsburgh. While in Louisville he took time to woo and marry the daughter of a prominent Kentucky man.

Of the sum paid over today \$1,345 goes to the American National bank and \$2,250 to the First National bank. The banks took judgment against young Hodson following his arrest. His father is a well-to-do farmer of Grant county, Indiana.

Mrs. John A. Titsworth was taken suddenly ill Thursday and was rushed to the Sexton sanitarium where an operation was performed. Her chances for recovery were at first thought to be slight, but today she was much improved.

TAKES ISSUE WITH WILSON

Former Secretary of State Bryan Says President's Program Violates Christian Tenets.

IS AGAINST PREPAREDNESS

Declares Plans Announced in New York Speech Are Menace to Our Peace and Safety.

(By United Press.)

Washington, Nov. 5.—William J. Bryan today formally opened the battle on national preparedness in a red-hot statement, assailing the position taken by President Wilson in his Manhattan Club speech at New York last night. Bryan did not mince his words. He declared the president's program of army and navy increases violated the principles of Christianity. Furthermore, he attacked his former chief for enunciating these doctrines at a Club composed of men whom he termed mammon worshipers.

In practically every quarter it was accepted that the former secretary of state's statement widened the breach between Bryan and the president. Bryan indicated, party leaders said, that even the prospects of causing a split in the Democratic party would not deter him from attacking what he believe to be a wrong stand on the part of Wilson.

Bryan struck out boldly with a statement that is expected to be the keynote of the campaign to be waged by the pacific group against the president's proposal for a citizens' army of 400,000. He would not say whether he would take the stump in his effort to defeat the president's national defense program.

"I have read the president's speech at New York with sorrow and concern," said Bryan. "He is doing what he believes to be his duty but I feel it my duty to dissent. We can not criticize his motive as he has given his views with clearness and emphasis, but those who differ with him are under a like obligation to express themselves with equal clearness.

"The plan which he proposes, is not only a departure from our tradition but a reversal of our national policy. It is not only a menace to our peace and safety but a challenge to the spirit of Christianity which teaches us to influence others by example rather than by exciting fear. "It is a false philosophy. Far from being false, it inevitably leads into difficulty. The spirit which makes the individual carry a revolver leads him not only to use it on slight provocation but to use language which will provoke.

"This nation has won its position in the world without reverting to the habits of toting a pistol or carrying a club."

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

RUSHVILLE LOOKS BARREN

Street and Store Front Decorations Are Removed Today.

Rushville's business section looked barren today. The reason for it was because the street and store front decorations were removed. They have been up nearly three weeks and Rushville people have become accustomed to the sight. No flags and no bunting will seem unnatural. Most of the decorations for the fall festival and horse show were left up for the Odd Fellows district meeting Thursday.

SHRINE MOVES TOWARDS KYOTO

Coronation Ceremony in Japan Gets Under Way Today With Departure From Tokyo.

REAL EVENT SET FOR NOV. 10

Not More Than Twenty White People Will Witness the Event
Many Ceremonies on Program

(U. P. Staff Correspondent.)

Tokyo, Japan, Nov. 5.—Japan's Emperor today departed for Kyoto, taking with him the Imperial Shrine with its sacred Treasures, the Divine Mirror, the Sword and the Jewel bequeathed to the Emperors by the Sun Goddess in anticipation of his coronation at that place November 10.

The substance of all the coronation rites to be observed today and December 1, is ancestor worship "justified by the grace of Heaven from time immemorial." Not more than twenty white persons will witness this bizarre, splendid, yet simple return to the primitive days of the world when man worshipped the spirit of his dead fathers in temples that were rude huts.

Count Okuma characterized this ceremony as "the natural reverence of a son for his father, carried beyond the grave and expended into a great system of society in which the nation is a super-family and the Emperor a super-Father." Every phase of the ceremony is some communication of the new Emperor to all the dead emperors concerning his ascension to the throne.

The shrine, conveyed in a gorgeous and bedizened "bogie carriage" is itself just a plain, white undecorated wooden shed such as the first emperors used.

On November 9, the emperor at Kyoto will receive Mr. George Guthrie, American Ambassador at Tokyo, and former mayor of Pittsburgh and other foreign representatives. Mr. Guthrie may be unable to reach Kyoto in time for this reception as he has been in the United States recently.

There is no crown and no crowning at the coronation November 10. The ceremony is conducted a pavilion of plain white wood, in the center of which the Emperor's canopy (not throne), is set. No nails are used in this structure, nor paint nor ornaments. The Emperor reads an address to the princes, officials and foreign representatives. It will be the first time foreigners have attended the ceremony.

Count Okuma will read an address to the Emperor, then 2,000 Japanese notables will well three "banzais" and the coronation will be concluded.

The days following will be observed various ceremonies, such as "the sacrifice of the fruits of the earth to the spirits of the departed." This begins at nightfall and concludes at dawn.

The bringing back of the Imperial Shrine to Tokyo completes the coronation.

Colds Relieved Without Dosing

If you have tried "Internal" medicines without success, we want you to try the "External" treatment—Vick's "Vapo-Rub" Salve. The meeting of the D. A. R. yesterday with Mrs. Will Dill at her home in North Morgan street proved to be one of the best and most interesting ever held by this society. The work for the year was outlined to the members. The educational committee, through the chairman, Mrs. C. H. Gilbert, told of the prizes which have been offered every year, and which will be continued this season to the history classes of the city schools for essays on Indiana history. The prize essays will be read next year and the prizes awarded in the Graham annex on Friday afternoon, April 1916, according to Mrs. Gilbert. The regent of this chapter urged the members to a greater effort during the year to assist in the centennial celebration and that the state song be placed in all the schools of the county. It was urged that the records be searched for all soldiers of the Revolutionary war, who died in Rush county and that government markers be placed on their graves. Reports from the state meeting at Terre Haute were also received. The meeting closed with a social hour and light refreshments were served. Twenty-seven members were in attendance.

On Tuesday evening, November 2, the home of Mr. and Mrs. Wilbur John, just west of Manilla, was a place of merriment. Progressives Absorbed

The elections in nine states Tuesday demonstrated nothing if they did not reveal that the Progressive party was observed by the Republican party. In Massachusetts, a veritable hotbed of Bull Moosers in 1914, a Republican governor was elected. In Kentucky, where the Progressives were especially strong in 1912, the Republicans made great inroads on the Democratic majorities and were even claiming the election of their gubernatorial candidate.

New York dispatches say that the battles in the presidential election of next year will be a clearly drawn struggle between the Republican and Democratic parties. The elections of Tuesday clearly proved that nowhere did the Progressives bob up with a showing that was worthy of mention. At the same time a few politicians in Indiana are trying to pump life into the party organization and make what there are left in the party believe that they have a ghost of a show.

The next contest will be a straight contest in the northern states, which President Wilson carried so easily.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

in 1912 because of Col. Roosevelt's candidacy. With one or two exceptions these states have gone Republican in state or congressional elections and now Republican leaders claim that such states as New York, New Jersey, Ohio, Pennsylvania, Minnesota, Wisconsin and Massachusetts will easily go Republican in 1916.

New York dispatches say that the exceptions in northern states are Indiana, Maine and California. But since Massachusetts went Republican, it can with reason be asserted that practically all of New England will be in the Republican column when they count the votes "the day after" in 1916.

Indiana will be a great battle ground next year. It is one of the few northern states which are normally Republican that has shown no disposition by election since 1912 to remain in the Democratic column. But one Republican congressman was elected in 1914. It was largely due to the fact that the Progressives maintained their organization and deluded many former Republicans into the belief that they had a chance to win.

President Wilson is the only thing the Democratic party has to brag about. Tuesday he was proved a liability instead of an asset. The Republicans gained control of the legislature in New Jersey, his home state, on an issue of his own making.

The Newcastle Times said before Tuesday's elections that the outcome would "largely forecast the outcome of next year's elections." We hope the Democratic Times is satisfied after reading the results.

HOOSIER HISTORY

(Prepared for the United Press by the centennial department of the Indiana Historical Commission.)

Morton Supports "Peoples Party."

The elements in opposition to the slavery - controlled Democracy, came together rapidly in 1854-6, diverse though they had been. In Indiana the coalition was first called the "People's Party." The factors in its makeup are suggested by the term applied to it by the Democrats—"The Abolition, Free soil, Maine law Native American, anti-catholicism anti-Nebraska party of Indiana." Morton was at once one of the most effective leaders in the new party, delivering telling speeches over the state against the Kansas Ne-

braska act, showing the fallacy of "Squatter sovereignty." In their first real trial of strength, the People's Party carried Indiana by eleven thousand majority.

PRIEST'S TOPIC

Continued from Page 1.

to St. Pagan (391) who in answering this very objection with regard to the Novatians: "God alone, you tell me, can pardon sins. Granted. But His divine power is exercised by means of His priests."

"Origen (185-254) of the great school of Alexandria, says to the sinners of his days: 'When you have eaten some indigestible food, and your stomach is filled with an excessive quantity of humor, you will suffer until you have gotten rid of it. So in like manner sinners, who hide and retain their sins within their breasts, become sick, therefore almost to death. If, however, they accuse themselves, confess their sins and vomit forth their iniquity, they will utterly drive out of their souls the principle of evil. Consider carefully whom you choose to hearken to your sins. Know well the character of the physician to whom you intend to relate the nature of your sickness. Choose one who understands human weakness, if he give you advice, follow it; if he judges and thinks that your sickness is of such a nature that it should be revealed publicly in church for the edification of the brethren and your own more effective cure, do not hesitate to do what he tells you.' (Commentary on Psalm 37.)

"During the persecution of the Emperor Diocletian about 250 A. D., many Christians apostatized. A year afterwards, when the persecution had ceased, a number of these sinners wished to be reconciled to the church at once, without undergoing the long canonical penance of the time. St. Cyprian of Carthage was very indignant at the violation of the church laws in their regard by some easygoing priests. He insisted strongly on their doing penance, and required them to accuse themselves of their sins, and atone for them. He writes: 'Let each one of you confess his sins, while his confession may still be received, and his satisfaction and the absolution of the priest are pleasing to the Lord.'"

Seventy-four questions on Catholic beliefs were received by the priest Wednesday. Among those which he answered last evening were the following:

What is the Catholic church's attitude on prohibition?

"The Catholic attitude on the liquor question is this—drinking is not an evil in itself, but is often what we call an approximate danger of sin," said Father Conway. "A Catholic is bound to become a total abstainer if he has an inherited or acquired taste for liquor that he cannot control. Others are counseled to be total abstainers, first as a protest against what is a public abuse, at least in this country; second, as a form of heroic virtue; third, as an example to weaker men and women; fourth, as a reparation to God for crimes committed by drunkards the world over.

"The American saloon business, while not an evil in itself, is often a great temptation to weak men; it often desecrates the Sabbath; it

SEASON OPENS WEDNESDAY

Hunters Can Kill Quail For Forty Days, Law Says.

The open season for hunting quail starts next Wednesday, November 10 and continues for forty days, closing December 20. From indications the season will be better than usual although the summer was decidedly rainy. Under the law no hunter is allowed to kill more than fifteen birds in one day and they are not to be sold. The demand for licenses this year will equal that of former years, it is stated, but the farmers are more strict than ever and as a result there is a limited territory in which to hunt the birds.

TOURNAMENT IS TO BE HELD HERE

Championship of East Central High School Association Will be Decided in Local Gym.

OFFICERS ARE ELECTED

Basketball Season Will Not Open With Home Game as Scheduled Because Seats Are Not in.

A basketball tournament of the schools represented in the East Central Indiana High School association, which organization was perfected last week at the state teachers' meeting in Indianapolis, will be held in Rushville in February. The schools in the association are Richmond, Connersville, Greenfield, Shelbyville, Greensburg and Rushville.

The tournament to be held here will take place before the sectional tournament to decide which team will represent this district at the state meet. Preliminary plans for the formation of this association were announced some time ago, but the adoption of the constitution and the election of officers took place at Indianapolis last week.

The officers of the association are as follows: H. B. Wilson, Rushville, president; Prof. Wylie, Greensburg, vice-president; R. W. Burns, Rushville, secretary-treasurer. These officers, with the addition of L. L. Lydy of Connersville and Prof. Andrews of Greenfield, compose the board of control.

The purpose of the organization is to promote better and cleaner basketball among these schools. The board of control will employ all officials of the game and thus every team and school will be assured of a "square deal." The tournament will be held in the new gymnasium and should furnish some interesting sport although it will have no bearing on the championship of this district.

The local team has been working out in the new gym. every evening. The gym. has not yet been equipped with seats and for this reason the opening game of the season will be delayed. The first home game of the season was originally scheduled with Richmond for a week, from tonight. Because the gym. is not ready this game has been pushed forward until March 4 and the first home game will not be played until about the first of the year. A practice game or two may be played between now and the time the team opens the season, which is on November 19 when the Rushville five journeys to Liberty. Most of the games will be played away from home up until the first of the year, when the home season will start.

MILITARY TONE TO HORSE SHOW

National Event in New York Has
This Likeness in Feminine Frocks
as Well as Horses

ARMY TO BE REPRESENTED

Middle West Competing This Year
With East—Six Days of Show
Starting Saturday

(By United Press.)
New York, Nov. 5.—The aristocracy of American society and the thoroughbreds of horsemanship were having their gowns finally fitted and their coats finally groomed today in anticipation of the opening tomorrow of the first National Horse Show at Madison Square Garden in two years.

The "tone" of the show will be decidedly military. In addition to the "military" trend of feminine frocks, frills and furbelows, which will of course be the big feature of the show not excluding the horses themselves, there will be much display of red-white-and-blue conservatively shot with the flags of all nations.

One of the biggest "horsey" features of the show will be the military classes, which will be judged by no less a personage than Maj. Gen. Leonard Wood; and not even Secretary Garrison can overrule him this time. The War department has co-operated with President Stotesbury of the association and other officials to notably demonstrate the efficiency of Uncle Sam's mounted men. Twenty-six picked cavalrymen will represent the regular army in the riding classes.

It is expected that many of those made suddenly wealthy, as a result of the munitions factories' effect upon the war babies of the stock exchange will be there, belligerently intent upon cannonading their way into society via the riding stock.

Picked militiamen from New York and other states will compete with the army men in a series of riding events that will take up much of the show's six-day program. They will contest for the Beresford challenge cup presented by Lord Decies and for the Canadian challenge cup given by Sir Adams Beck of London, Ontario.

Between the many new exhibitors, principally from the middle west, who have spent hundreds of thousands of dollars getting their "strings" together, there is expected to be war to the last fetlock.

So you see, the Horse Show this year will be, as you might say, all there but the bullets.

NOBLESVILLE "DRYS" INCREASE MAJORITY

Victory by Ten Votes Two Years Ago is Raised to 237 in Election on Thursday.

WOMEN HOLD PRAYER SERVICE

Noblesville, Ind., Nov. 5.—In a local option election Thursday Noblesville voted dry by a majority of 237, as compared with ten two years ago. The official vote is as follows: First Ward: Wets, 115; drys, 246; dry majority, 131. Second Ward:

Wets, 116; drys, 305; dry majority, 189. Third Ward: Wets, 311; drys, 228; wet majority, 83.

The first ward increased its dry majority eighty-six over two years ago. The dry majority in the Second ward was an increase of eighty-two over that of 1913. The Third Ward was conceded to the wets, as it gave a wet majority of 142 two years ago, but the lead was decreased to eighty-three, the drys making big gains in the factory district.

The drys celebrated their victory by ringing church bells and parading the streets headed by bands and drum corps. The women of the city held an all-day prayer service at the First Baptist church. They congregated at the church again to receive the returns, and when the dry victory was announced they filed out of the building two abreast and marched through the business district singing religious songs and giving the

chantauqua salute to the crowds on the sidewalks.

George Shirts of Indianapolis, representing the Indiana Brewers' Association, had appeared before the county commissioners to object to the use of the basement of the Christian church as a polling place while prayer services were being held in the auditorium above. He pointed out that it was unlawful for a building occupied by a voting place to be used for anything else. The women transferred their prayer services to the First Baptist church.

Plans For National Campaign to Increase Consumption of Milk, Butter and Cheese.

TO DISTRIBUTE RECIPES

Secretary of Association Declares More Products Are Produced Than Ever Before.

(By United Press.)

Chicago, Nov. 5.—A national education advertising campaign to increase the consumption of dairy products milk, butter, cheese and ice cream was the chief subject at the annual meeting of officers and directors of the National Dairy Council at the Hotel Sherman today. More than a hundred delegates representing a membership of nearly 50,000 were in attendance.

"Something has to be done to increase the consumption. More dairy products are being produced than ever before" said W. E. Skinner, Chicago, secretary of the council. "Newspapers, magazines and stores will be used in the campaign. Books containing recipes in which dairy products are used will be distributed throughout the country." Livestock sanitation as handled by the states came in for a scoring by Skinner.

HERE'S NATURE'S
OWN REMEDY
FOR CATARRH

Hyomei Relieves Catarrh Without the Use of Dangerous Drugs.

Not until Hyomei was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hyomei is an oil and its air is breathed through a small inhaler furnished with it for a few minutes four times a day, and during that time every particle of this Hyomei-laden air taken into the air passages and lungs is impregnated with a powerful germ killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tracts or bring on some other diseases and never make a permanent cure of catarrh. But when the air of Hyomei penetrates to the inmost air cells of the lungs and enters the blood with the oxygens is not only kills the germs in the throat and nose, but kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Johnson's Drug Store has so much faith in the merit of Hyomei that they agreed to return the money to any purchaser who is not thoroughly satisfied.

wiped out" said Skinner today in an exclusive interview with a United Press representative. "as long as the situation continues as it is. I am strong for the state veterinarians. Think they are a fine idea and wouldn't want to lose them. But left alone to much, they'll eventually wipe out the stock."

"Let a constructive breeder handle the livestock situation for the state. He has a keen interest in the preservation of stock. When he hears of a disease among a herd, you can bet his action will be promptly to assure the safety of other stock instead of waiting until he has received a culture of the disease." Skinner believes the scientist should work under the orders of a breeder.

Officers of the council are Dr. H. B. Favill, President, Lake Mills, Wis.; H. O. Alexander, vice-pres., Chicago; R. A. Woodhull, Chicago, treasurer.

Among those who spoke were: W. W. Marsh, Waterloo, Iowa; M. D. Munn, St. Paul, Minn.; J. W. Knobbe, H. B. Osgood, G. E. Haskell, W. J. Kittle, Chicago; J. J. FRATERNALISM
WARMLY PRAISED

Continued from Page 1.

There are approximately 85,000 members in Indiana."

He said the Odd Fellows lodge had no quarrel to pick with any other fraternal body. He said the lodge was neither the oldest nor the youngest. The grand patriarch declared that the Odd Fellows lodge had no war with any church organization, and expressed the opinion that every other fraternal order would concur in that.

"It (the fraternal order) should not take the place in your heart of the church," he continued. "It was never intended it should. On the other hand, we work hand and hand with the churches. Every lesson taught by Odd Fellowship is taken from the pages of the Bible."

"I believe there is more fraternalism in the United States than in any country in the world. That spirit of fraternalism began when our forefathers landed on these shores and banded themselves together. Not the least of the forces to continue this spirit is our great order."

"If such a fraternal spirit had existed across the water, I do not believe there would have been the great conflict that is now going on. We want the spirit of fraternalism to grow and the Odd Fellows to have a hand in it, that the spirit of fraternalism shall extend across the seas and shall embrace the world."

In introducing Mrs. J. M. Stipp of Michigan City, president of the Rebekah Assembly in Indiana, Edwin Farrer past grand master, recalled the fight that had been made to get a women's degree in the lodge. He recalled how four young men, who later became distinguished, were initiated into the Odd Fellows lodge about the same time at different points in the state—General P. A. Hackleman, in Franklin lodge here; Oliver P. Morton, in Hagerstown; Schuyler Colfax, in South Bend, and Sol Meredith in Cambridge City. He remembered how Colfax and Hackleman labored together as

great representatives to the sovereign grand lodge to win the Rebekah degree. He said that when Colfax, the sponsor of the Rebekah lodge, suggested it to the sovereign grand lodge, an elderly member arose and said that when the young gentleman from Indiana had learned as much about women as he had, proved that woman could keep a secret because one had never been found capable of divulging a secret of the lodge, whereas there had been men of that character.

Mrs. Stipp spoke briefly, asserting that the Rebekah degree has done more for women than any other women's order in the world. She also paid tribute to the work of Grand Master J. T. Arbuckle.

Dr. A. A. Spears, of Brazil, grand warden, said he always knew Rushville was one of the best in Indiana, but that he came from the county of which men are made—Clay. Mrs. Lelah Chesline, treasurer of the Rebekah Assembly, spoke briefly. She said the Rebekah work is founded on the Bible and great stress is laid on the golden rule. She declared the mission of the degree was to promote the spirit of helpfulness and eliminate that of selfishness.

James E. Watson replied in a happy vein in behalf of the class. He said he was but an infant, and like all little ones was all stomach and mouth, but his wants were administered to by the Rebekahs after the degree work.

Mr. Watson said he had been studying the women's degrees in lodges to estimate if possible what effect woman's suffrage would have on the country. He said his observations had been that membership in a woman's degree did not militate in the least against any of the duties of womanhood.

"I have been delighted and charmed by this work this afternoon," he asserted. "The love of one man for another will continue to thrill man as long as the world goes on."

He asserted, in closing, that reforming by-laws will accomplish nothing, but that it remains for man to get on the high plateau of fraternalism to become better.

S. G. Stroup, past grand patriarch of Shelbyville, closed the program by thanking the Odd Fellows of Rushville for their splendid meeting. The benediction was pronounced by the Rev. S. G. Huntington of the First Baptist church.

DOCTOR WANTS
RHEUMA FORMULA

An Old-Time Patient Claims Great Benefit From its Use.

The following is clipped from a medical journal of May, 1914, page 166 (name on request): "An old-time patient of mine just informed me that he treated with number of physicians and patent medicines for rheumatism for the past two years without obtaining much relief until taking a preparation called 'Rheuma,' and after taking two or three bottles he claims almost a complete cure. Can you tell me what the formula is?—T. A. M., M. D., Missouri."

Rheuma is manufactured only by the Rheuma Co., Buffalo, N. Y., and is sold by Johnson's Drug Store and all other druggists.

Cases like the above are numerous, for many users of this great remedy for rheumatism and find it reaches the disease through the blood, kidneys and bowels, and cleanses the system of the poisonous uric acid sediment.

The most widespread
disease in the world

The most widespread disease in the world today is that dread affliction of the teeth called pyorrhea. Nine out of every ten grown persons have it to some extent. You may have it and be unaware of it. Why? Because scientists have proved that the cause of this disease is a germ which inhabits every human mouth, and that thousands have this disease and do not realize it until it reaches the advanced stages of bleeding gums and loose teeth.

Accept the advice dentists everywhere are giving and take special precautions in your daily toilet against this disease. To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient

form of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sental Remedies Co., 507 Union Central Bldg., Cincinnati, Ohio.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your
Kidneys and neutralize irri-
tating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood, and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

QUICK RESULT ASTONISHING TO CARPENTER

Kentuckian Says Tanlac Made Him
Improve Rapidly.

Cincinnati, O., Nov. 4.—Stomach trouble and rheumatism were the twin bugaboos of A. S. Young, a well-known contracting carpenter, who lives at 624 York street, Newport, until he took Tanlac, the "Master Medicine." Now, however, it's different, his former trouble having eliminated by the premier preparation. Mr. Young said:

"I had stomach trouble and rheumatism for a long time and was unable to find relief until I tried Tanlac. I suffered a great deal with pains in the pit of my stomach, dull headaches and nausea. I had very little appetite, and the food that I did eat didn't agree with me. Gas would form in my stomach immediately after eating.

"The rheumatism also caused much annoyance, especially on damp, cool days. My joints and muscles were stiff and ached intensely.

"Tanlac was recommended to me by friends who had benefited by its use. I procured a bottle and began improving almost immediately. In fact, I was astonished at the result. In a short time the stomach trouble had been relieved. My appetite now is good and the headaches and nauseating feeling have disappeared. The rheumatism also has been greatly benefited. Tanlac, in my opinion, is a fine medicine, and I'm glad to recommend it to my friends and others."

Tanlac, the Master Medicine, is now sold in Rushville at F. E. Wolcott's Drug Store.

Report From Papal Envoy in Switzerland Received at Vatican.

(By United Press.)

Rome, Nov. 5.—A long report from Monseigneur Marchetti Papal envoy in Switzerland, concerning negotiations of some sort with Von Buelow ex-chancellor of Germany, arrived at the Vatican today by special courier. Despite emphatic denials, the belief here that Marchetti and Von Buelow are discussing peace was much taken.

RAID ALLEGED 'TIGER' IN HOME

Police Find Seven Quarts of Whiskey in Trunk at Robert Johnson's House.

WHO WAS THE OPERATOR?

Court of Inquiry is Held This Afternoon to Determine Guilty Person—Two Arrests.

A raid on the home of Robert Johnson, colored, corner of Eighth and Cherry streets, this morning resulted in the arrest of Marshall Spurrier and Earl Green, both colored, after the police had found seven quarts of whiskey hidden in a trunk.

Just who was the operator of the alleged "blind tiger" is bothering the police and in an effort to obtain some information in order that the proper person may be indicted, a court of inquiry was being conducted this afternoon in police court. Green was the first witness before the inquiry court. The testimony was being taken down by a stenographer.

Johnson, at whose home the police found the two men, is in College Corner, Ohio, working for Wilk & Company, and the police intimated that Mrs. Johnson may have been the operator of the alleged "tiger." The police have received numerous complaints concerning the crowds that gathered at the Johnson home. The Johnson family lives in the south half of the double house at the corner of Eighth and Cherry streets. This morning word came to police headquarters that a "party" was in progress at the Johnson home.

Chief Rosencrance, Deputy Sheriff Sullivan and Prosecutor Stevens went to the place. Spurrier was very badly intoxicated, while Green was not in a bad condition, although he had been drinking. A third man had just left the place only a few minutes before the officers arrived. This man is said to have been Hughie Potter and he is being hunted by the police.

Spurrier was not so drunk but that he tried to escape. He was grabbed by Deputy Sheriff Sullivan and quickly downed. A search of the house was then made and it was some little time before the "booze" was located. Two whiskey glasses were found on top of the trunk and when the trunk was opened the seven quarts of whiskey were found. Mrs. Johnson was very much enraged at the police raiding her home and called them robbers. The neighbors told the police that men had gathered at the Johnson home frequently.

The court of inquiry is expected to reveal the keeper of the alleged "tiger." A razor was found in the overcoat pocket of Green, but he did not offer any resistance to the police.

FRATERNALISM WARMLY PRAISED

Speakers at Odd Fellows Meeting Give Opinion That Such a Spirit Would Have Prevented War.

MONSTER TORCHLIGHT PARADE

Grand Patriarch Fulling Makes Chief Address and James E. Watson Responds For Class.

The spirit of fraternalism, not only as exemplified by Odd Fellowship but by other orders, was warmly praised Thursday night at the public meeting following the district session of Odd Fellows and the belief was expressed that if such a spirit of brotherly love had been paramount in Europe as it is in the United States, there would have been no great conflict.

The principal address was made by H. F. Fulling of Booneville, grand patriarch, and the response for the class of twenty-eight who were initiated into the subordinate lodge Thursday afternoon was made by James E. Watson, who was a member of the class.

The Graham Annex auditorium was partially filled for the meeting, but what the crowd lacked in size was made up for in enthusiasm, which frequently was given expression to by loud applause when the tenets of the L. O. O. F. were lauded. Several grand officers and past grand officers responded with brief remarks.

The address of welcome was delivered by J. T. Arbuckle, grand master, of this city. He praised in high terms the merits of Rushville and asked the visitors to observe what a beautiful city they were sojourning in. He expressed the heartfelt thanks of Franklin lodge and other residents of the city for the attendance of the many high officers of the lodge.

Grand Patriarch Fulling took opportunity to say a few nice things about Rushville, pausing long enough to observe that he had had a glimpse of this city's beautiful homes and business buildings and that he was very favorably impressed. He also said the torchlight procession was the biggest and most magnificent parade he had ever seen in a city of this size.

The torchlight procession was a monster demonstration for Odd Fellowship. There were approximately one thousand Odd Fellows in line and about about fifty automobiles. Red fire was carried by each marcher as they came, four abreast, down the Main street hill. The parade was led by Samuel L. Trabue, grand marshal, astride a horse. Following was the Odd Fellows band of this city and a company of Patriarch Militants of Indianapolis. The Shelbyville military band led the Shelbyville delegation and the Arlington band the automobile division of the procession.

"This order of which we are so proud," said Grand Patriarch Fulling, "was instituted a little over 96 years ago in Baltimore by five men. Thomas Wylie was the principal mover and to him Odd Fellowship owes more than to any other individual. He did not come from the nobility, neither did he come from the scum of the earth, but from the great middle class. And the fact that the order sprang from the common people has made its objects and principles appeal to the great mass of the middle class.

"Its membership of approximately two and one-half millions extends all over the world. The sun never sets on Odd Fellowship. Anywhere in the world you may find them."

CONFESSION IS PRIEST'S TOPIC

Rev. Bertrand L. Conway, Asserts Practice Originated Before Thirteenth Century

GOD PROVIDES TWO REMEDIES

Men May Gain Eternal Life by Grace of Baptism And by The Remedy of Penance

The lecture by the Rev. Bertrand L. Conway, C. S. P., on "Confession" at St. Mary's Catholic church last evening was largely attended. Father Conway in his discussion of the sacrament of penance, or confession, said in part:

"It has frequently been stated in controversial discussion on the confession of sins, that this practice originated in the thirteenth century, and was unknown in the early days of Christianity. It is my intention tonight to call your attention to a few testimonies of the early fathers on this point, none of which is older than the fifth century.

"St. Leo the Great, famous even in secular history because of his well-known meeting with Attila, the barbarian, was a great lover of tradition, and a pope who spoke continuously against the doctrinal novelties of his time. He writes: (Epistle 108.)

"I will tell you that the ecclesiastical law prescribes concerning the condition of penitents. God in His abundant mercy has provided two remedies for the sins of men. They may gain eternal life, not only by the grace of baptism, but also by the remedy of penance. Those who have violated the vows of their baptism may obtain the remission of their sins by condemning themselves to the divine goodness has so decreed that the pardon of God can only be obtained by sinners through the prayers of the priests. Jesus Christ Himself, Mediator between God and man, has conferred upon the rulers of the church the power of imposing canonical penance upon sinners who confess their sins, and of allowing them to receive the sacraments of Christ, after they have purified their souls by a salutary satisfaction. It is dangerous for a weak and ignorant man to defer his conversion to the last uncertain hours of his life when he may be unable to confess and obtain priestly pardon; he ought, when he can, to merit pardon by a full satisfaction for his sins."

"St. Augustine (354-430) in one of his sermons, CCXSV, declared that independently of the church, no sins were forgiven, for she has received from Jesus Christ the power of the keys to retain or remit sin.

"At Milan, St. Ambrose (340-397) in his treatise on Penance (Book 11, Chap. 2, No. 7), declares 'the priests alone have the right to pardon sins and biographer speaks of the great care he always manifested in guarding the secret of the confessional, like the clergy of our own day.

"Many outside the Catholic church who are acquainted with the fact of our early penitential discipline, maintain that the pardon granted by the church was a mere external reconciliation of penitents with the visible body of the faithful. In no sense they tell us, did it mean pardon of one's sins by Almighty God. This is simply not the fact. The men who held that doctrine in the early days of the early church were heretics, known as Novatians. Like the modern Protestant or the old time Pharisee in the time of Jesus, they declare that God alone could pardon sins, and restore again the divine life to the soul. Listen

KING MEANS TO DEFY WAR PARTY

Greek Ruler Will Still Fight War, According to Indications of Dissolution of Parliament

WILL KEEP OUT VENIZELLOS

(By United Press.) Athens, Nov. 5.—King Constantine apparently means to defy the Greek war party. Indications today were that the king would dissolve parliament, thus preventing the return to office of Ex-premier Venizelos the war party leader.

The king today appointed General Yanakitsa his aid-de-camp, thus indicating his approval of the attitude of the general whose defiance of Venizelos brought on the cabinet crisis.

The press and the politicians agreed today that the king would probably dissolve parliament. The result would be that Zaimis, though he has resigned, would hold over for at least two months, and that Greece would remain neutral for that time at least.

PAYS MONEY SON GOT BY FORGING CHECKS

John Hodson Today Settles Judgment Frankfort Banks Received After Arrest of Orville.

RECALLS SPECTACULAR CHASE

(By United Press.) Frankfort, Ind., Nov. 5.—John Hodson, father of Orville Hodson, the spectacular check forger now in Jeffersonville reformatory today paid into banks \$3,595, thus making good the amount his son obtained from two local banks by forgery.

Hodson was arrested in Pittsburgh. His term in Jeffersonville is from two to fourteen years.

Young Hodson led officers a merry chase from Indianapolis to Louisville and then down into Mexico, up the west coast, and across to New York and back to Pittsburgh. While in Louisville he took time to woo and marry the daughter of a prominent Kentucky man.

Of the sum paid over today \$1,345 goes to the American National bank and \$2,250 to the First National bank. The banks took judgment against young Hodson following his arrest. His father is a well-to-do farmer of Grant county, Indiana.

Mrs. John A. Tittsworth was taken suddenly ill Thursday and was rushed to the Sexton sanitarium where an operation was performed. Her chances for recovery were at first thought to be slight, but today she was much improved.

TAKES ISSUE WITH WILSON

Former Secretary of State Bryan Says President's Program Violates Christian Tenets.

IS AGAINST PREPAREDNESS

Declares Plans Announced in New York Speech Are Menace to Our Peace and Safety.

(By United Press.) Washington, Nov. 5.—William J. Bryan today formally opened the battle on national preparedness in a red-hot statement, assailing the position taken by President Wilson in his Manhattan Club speech at New York last night. Bryan did not mince his words. He declared the president's program of army and navy increases violated the principles of Christianity. Furthermore, he attacked his former chief for enunciating these doctrines at a Club composed of men whom he termed mammon worshippers.

In practically every quarter it was accepted that the former secretary of state's statement widened the breach between Bryan and the president. Bryan indicated, party leaders said, that even the prospects of causing a split in the Democratic party would not deter him from attacking what he believed to be a wrong stand on the part of Wilson. Bryan struck out boldly with a statement that is expected to be the keynote of the campaign to be waged by the pacific group against the president's proposal for a citizens' army of 400,000. He would not say whether he would take the stump in his effort to defeat the president's national defense program.

"I have read the president's speech at New York with sorrow and concern," said Bryan. "He is doing what he believes to be his duty but I feel it my duty to dissent. We can not criticize his motive as he has given his views with clearness and emphasis, but those who differ with him are under a like obligation to express themselves with equal clearness.

"The plan which he proposes, is not only a departure from our tradition but a reversal of our national policy. It is not only a menace to our peace and safety but a challenge to the spirit of Christianity which teaches us to influence others by example rather than by exciting fear. "It is a false philosophy. Far from being false, it inevitably leads into difficulty. The spirit which makes the individual carry a revolver leads him not only to use it on slight provocation but to use language which will provoke. "This nation has won its position in the world without reverting to the habits of toting a pistol or carrying a club."

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need); apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, silky and soft and look and feel a hundred times better.

RUSHVILLE LOOKS BARREN

Street and Store Front Decorations Are Removed Today.

Rushville's business section looked barren today. The reason for it was because the street and store front decorations were removed. They have been up nearly three weeks and Rushville people have become accustomed to the sight. No flags and no bunting will seem unnatural. Most of the decorations for the fall festival and horse show were left up for the Odd Fellows district meeting Thursday.

SHRINE MOVES TOWARDS KYOTO

Coronation Ceremony in Japan Gets Under Way Today With Departure From Tokyo.

REAL EVENT SET FOR NOV. 10

Not More Than Twenty White People Will Witness the Event Many Ceremonies on Program.

(U. P. Staff Correspondent.)

Tokyo, Japan, Nov. 5.—Japan's Emperor today departed for Kyoto, taking with him the Imperial Shrine with its sacred Treasures, the Divine Mirror, the Sword and the Jewel bequeathed to the Emperors by the Sun Goddess in anticipation of his coronation at that place November, 10.

The substance of all the coronation rites to be observed today and December 1, is ancestor worship "justified by the grace of Heaven from time immemorial." Not more than twenty white persons will witness this bizarre, splendid, yet simple return to the primitive days of the world when man worshipped the spirit of his dead fathers in temples that were rude huts.

Count Okuma characterized this ceremony as "the natural reverence of a son for his father, carried beyond the grave and expended into a great system of society in which the nation is a super-family and the Emperor a super-father." Every phase of the ceremony is some commemoration of the new Emperor to all the dead emperors concerning his ascension to the throne.

The shrine, conveyed in a gorgeous and bedizened "bogey carriage" is itself just a plain, white undecorated wooden shed such as the first emperors used.

On November 9, the emperor at Kyoto will receive Mr. George Guthrie, American Ambassador at Tokyo, and former mayor of Pittsburgh and other foreign representatives. Mr. Guthrie may be unable to reach Kyoto in time for this reception as he has been in the United States recently.

There is no crown and no crowning at the coronation November 10. The ceremony is conducted a pavilion of plain white wood, in the center of which the Emperor's canopy, (not throne), is set. No nails are used in this structure, nor paint nor ornaments. The Emperor reads an address to the princes, officials and foreign representatives. It will be the first time foreigners have attended the ceremony.

Count Okuma will read an address to the Emperor, then 2,000 Japanese notables will wear three "banzais" and the coronation will be concluded.

The days following will be observed various ceremonies, such as "the sacrifice of the fruits of the earth to the spirits of the departed." This begins at nightfall and concludes at dawn.

The bringing back of the Imperial Shrine to Tokyo completes the coronation.

Many People In This Town never really enjoyed a meal until we advised them to take a

Colds Relieved Without Dosing

If you have tried "Internal" medicines without success, we want you to try the "External" treatment—Vick's "Vap-O-Rub" Salve. Apply hot wet towels over the throat and chest to open the pores, then rub Vick's in well and cover with a warm flannel cloth. The body warmth releases healing vapors that are inhaled with each breath, and, in addition, Vick's is absorbed through the pores. 25c, 50c, or \$1.00.

Progressives Absorbed

The elections in nine states Tuesday demonstrated nothing if they did not reveal that the Progressive party was observed by the Republican party. In Massachusetts, a veritable hotbed of Bull Moosers in 1914, a Republican governor was elected. In Kentucky, where the Progressives were especially strong in 1912, the Republicans made great inroads on the Democratic majorities and were even claiming the election of their gubernatorial candidate.

New York dispatches say that the battles in the presidential election of next year will be a clearly drawn struggle between the Republican and Democratic parties. The elections of Tuesday clearly proved that nowhere did the Progressives bob up with a showing that was worthy of mention. At the same time a few politicians in Indiana are trying to pump life into the party organization and make what there are left in the party believe that they have a ghost of a show.

The next contest will be a straight contest in the northern states, which President Wilson carried so easily

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets. Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown tinge," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

in 1912 because of Col. Roosevelt's candidacy. With one or two exceptions these states have gone Republican in state or congressional elections and now Republican leaders claim that such states as New York, New Jersey, Ohio, Pennsylvania, Minnesota, Wisconsin and Massachusetts will easily go Republican in 1916.

New York dispatches say that the exceptions in northern states are Indiana, Maine and California. But since Massachusetts went Republican, it can with reason be asserted that practically all of New England will be in the Republican column when they count the votes "the day after" in 1916.

Indiana will be a great battle ground next year. It is one of the few northern states which are normally Republican that has shown no disposition by election since 1912 to remain in the Democratic column. But one Republican congressman was elected in 1914. It was largely due to the fact that the Progressives maintained their organization and deluded many former Republicans into the belief that they had a chance to win.

President Wilson is the only thing the Democratic party has to brag about. Tuesday he was moved a liability instead of an asset. The Republicans gained control of the legislature in New Jersey, his home state, on an issue of his own making.

The Newcastle Times said before Tuesday's elections that the outcome would "largely forecast the outcome of next year's elections." We hope the Democratic Times is satisfied after reading the results.

HOOSIER HISTORY

(Prepared for the United Press by the centennial department of the Indiana Historical Commission.)

Morton Supports "Peoples Party."

The elements in opposition to the slavery-controlled Democracy, came together rapidly in 1854-6, diverse though they had been. In Indiana the coalition was first called the "People's Party." The factors in its makeup are suggested by the term applied to it by the Democrats—"The Abolition, Free soil, Maine law Native American, anti-catholicism anti-Nebraska party of Indiana." Morton was at once one of the most effective leaders in the new party, delivering telling speeches over the state against the Kansas-Ne-

braska act, showing the fallacy of "Squatter sovereignty." In their real trial of strength, the People's Party carried Indiana by eleven thousand majority.

CONFESSION IS PRIEST'S TOPIC

Continued from Page 1.

to St. Paeian (391) who in answering this very objection with regard to the Novatians: "God alone, you tell me, can pardon sins. Granted. But His divine power is exercised by means of His priests."

"Origen (185-254) of the great school of Alexandria, says to the sinners of his days: 'When you have eaten some indigestible food, and your stomach is filled with an excessive quantity of humor, you will suffer until you have gotten rid of it. So in like manner sinners, who hide and retain their sins within their breasts, become sick, therefrom almost to death. If, however, they accuse themselves, confess their sins and vomit forth their iniquity, they will utterly drive out of their souls the principle of evil. Consider carefully whom you choose to hearken to your sins. Know well the character of the physician to whom you intend to relate the nature of your sickness. Choose one who understands human weakness. If he give you advice, follow it; if he judges and thinks that your sickness is of such a nature that it should be revealed publicly in church for the edification of the brethren and your own more effective cure, do not hesitate to do what he tells you.' (Commentary on Psalm 37.)

"During the persecution of the Emperor Diocletian about 250 A. D., many Christians apostatised. A year afterwards, when the persecution had ceased, a number of these sinners wished to be reconciled to the church at once, without undergoing the long canonical penance of the time. St. Cyprian of Carthage was very indignant at the violation of the church laws in their regard by some easygoing priests. He insisted strongly on their doing penance, and required them to accuse themselves of their sins, and atone for them. He writes: 'Let each one of you confess his sins, while his confession may still be received, and his satisfaction and the absolution of the priest are pleasing to the Lord.'

Seventy-four questions on Catholic beliefs were received by the priest Wednesday. Among those which he answered last evening were the following:

What is the Catholic church's attitude on prohibition?

"The Catholic attitude on the liquor question is this—drinking is not an evil in itself, but is often what we call an approximate danger of sin," said Father Conway. "A Catholic is bound to become a total abstainer if he has an inherited or acquired taste for liquor that he cannot control. Others are counselled to be total abstainers, first as a protest against what is a public abuse, at least in this country; second, as a form of heroic virtue; third, as an example to weaker men and women; fourth, as a reparation to God for crimes committed by drunkards the world over."

"The American saloon business, while not an evil in itself, is often a great temptation to weak men. It often desecrates the Sabbath; it

TOURNAMENT IS TO BE HELD HERE

Championship of East Central High School Association Will be Decided in Local Gym.

OFFICERS ARE ELECTED
Basketball Season Will Not Open With Home Game as Scheduled Because Seats Are Not in.

A basketball tournament of the schools represented in the East Central Indiana High School association, which organization was perfected last week at the state teachers' meeting in Indianapolis, will be held in Rushville in February. The schools in the association are Richmond, Connersville, Greenfield, Shelbyville, Greensburg and Rushville.

The tournament to be held here will take place before the sectional tournament to decide which team will represent this district at the state meet. Preliminary plans for the formation of this association were announced some time ago, but the adoption of the constitution and the election of officers took place at Indianapolis last week.

The officers of the association are as follows: H. B. Wilson, Rushville, president; Prof. Wylie, Greensburg, vice-president; R. W. Burns, Rushville, secretary-treasurer. These officers, with the addition of L. L. Lydy of Connersville and Prof. Andrews of Greenfield, compose the board of control.

The purpose of the organization is to promote better and cleaner basketball among these schools. The board of control will employ all officials of the game and thus every team and school will be assured of a "square deal." The tournament will be held in the new gymnasium, and should furnish some interesting sport although it will have no bearing on the championship of this district.

The local team has been working out in the new gym every evening. The gym has not yet been equipped with seats and for this reason the opening game of the season will be delayed. The first home game of the season was originally scheduled with Richmond for a week from tonight. Because the gym is not ready this game has been pushed forward until March 4 and the first home game will not be played until about the first of the year. A practice game or two may be played between now and the time the team opens the season, which is on November 19 when the Rushville five journeys to Liberty. Most of the games will be played away from home up until the first of the year, when the home season will start.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank you a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very much from a female trouble. I had bearing down pains, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and tend my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R.F.D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

during the summer is a fat man wearing a sport shirt and the most distressing sight in the winter is to see someone trying to get along without A GOOD STORM BUGGY. If you knew how warm one of my storm buggies would keep you, how well they are made, now nice they look, and what a general comfort they would be to the whole family, you certainly would own one before the end of the week. I have used special pains to obtain a line of storm buggies that have all the little things that make them desirable, quality and style together with a comfortably designed cushion and back, easy riding springs, fine finish and the best of material throughout, are some of the essential things found on them and you are welcome at all times to call and see for yourself and I assure you it will be a pleasure to show you the detail construction of these buggies at any time. The construction of a STORM BUGGY makes lots of difference in the draft and I will explain to you why these buggies are lighter draft than others. It only takes a few minutes of your time to look at our stock and it will mean years of regret if you don't. Now is the time to get ready for winter, SO DO IT NOW.

SEASON OPENS WEDNESDAY

Hunters Can Kill Quail For Forty Days, Law Says.

The open season for hunting quail starts next Wednesday, November 10 and continues for forty days, closing December 20. From indications the season will be better than usual although the summer was decidedly rainy. Under the law no hunter is allowed to kill more than fifteen birds in one day and they are not to be sold. The demand for licenses this year will equal that of former years, it is stated, but the farmers are more strict than ever and as a result there is a limited territory in which to hunt the birds.

MILITARY TONE TO HORSE SHOW

National Event in New York Has
This Likeness in Feminine Frocks
as Well as Horses

ARMY TO BE REPRESENTED

Middle West Competing This Year
With East—Six Days of Show
Starting Saturday

(By United Press.)

New York, Nov. 5.—The aristocracy of American society and the thoroughbreds of horsemanship were having their gowns finally fitted and their coats finally groomed today in anticipation of the opening tomorrow of the first National Horse Show at Madison Square Garden in two years.

The "tone" of the show will be decidedly military. In addition to the "military" trend of feminine frocks, frills and furbelows, which will of course be the big feature of the show not excluding the horses themselves, there will be much display of red-white-and-blue conservatively shot with the flags of all nations.

One of the biggest "horsey" features of the show will be the military classes, which will be judged by no less a personage than Maj. Gen. Leonard Wood; and not even Secretary Garrison can overrule him this time. The War department has co-operated with President Statesbury of the association and other officials to notably demonstrate the efficiency of Uncle Sam's mounted men. Twenty-six picked cavalymen will represent the regular army in the riding classes.

It is expected that many of those made suddenly wealthy, as a result of the munitions factories' effect upon the war babies of the stock exchange will be there, belligerently intent upon cannonading their way into society via the riding stock.

Picked militiamen from New York and other states will compete with the army men in a series of riding events that will take up much of the show's six-day program. They will contest for the Beresford challenge cup presented by Lord Decies and for the Canadian challenge cup given by Sir Adams Beck of London, Ontario.

Between the many new exhibitors, principally from the middle west, who have spent hundreds of thousands of dollars getting their "strings" together, there is expected to be war to the last felloek.

So you see, the Horse Show this year will be, as you might say, all there but the bullets.

NOBLESVILLE "DRYS" INCREASE MAJORITY

Victory by Ten Votes Two Years

Age is Raised to 237 in Election on Thursday.

WOMEN HOLD PRAYER SERVICE

Noblesville, Ind., Nov. 5.—In a local option election Thursday Noblesville voted dry by a majority of 237, as compared with ten two years ago. The official vote is as follows: First Ward: Wets, 115; drys, 240; dry majority, 131. Second Ward:

Wets, 116; drys, 305; dry majority, 189. Third Ward: Wets, 311; drys, 228; wet majority, 83.

The first ward increased its dry majority eighty-six over two years ago. The dry majority in the Second ward was an increase of eighty-two over that of 1913. The Third Ward was conceded to the wets, as it gave a wet majority of 142 two years ago, but the lead was decreased to eighty-three, the drys making big gains in the factory district.

The drys celebrated their victory by ringing church bells and parading the streets headed by bands and drum corps. The women of the city held an all-day prayer service at the First Baptist church. They congregated at the church again to receive the returns, and when the dry victory was announced they filed out of the building two abreast and marched through the business district singing religious songs and giving the

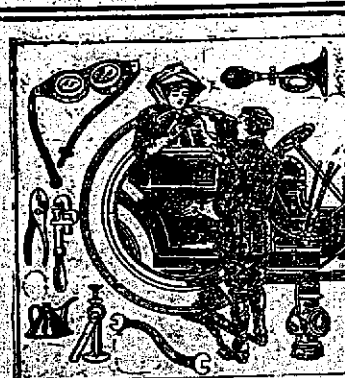

chautauqua salute to the crowds on the sidewalks.

George Shirts of Indianapolis, representing the Indiana Brewers' Association, had appeared before the county commissioner's to object to the use of the basement of the Christian church as a polling place while prayer services were being held in the auditorium above. He pointed out that it was unlawful for a building occupied by a voting place to be used for anything else. The women transferred their prayer services to the First Baptist church.

Secretary of Association Declares More Products Are Produced Than Ever Before.

(By United Press.)

Chicago, Nov. 5.—A national education advertising campaign to increase the consumption of dairy products milk, butter, cheese and ice cream was the chief subject at the annual meeting of officers and directors of the National Dairy Council at the Hotel Sherman today. More than a hundred delegates representing a membership of nearly 50,000 were in attendance.

"Something has to be done to increase the consumption. More dairy products are being produced than ever before," said W. E. Skinner, Chicago, secretary of the council. "Newspapers, magazines and stores will be used in the campaign. Books containing recipes in which dairy products are used will be distributed throughout the country."

Livestock sanitation as handled by the states came in for a scoring by Skinner.

HERE'S NATURE'S OWN REMEDY FOR CATARRH

Hyomei Relieves Catarrh Without the Use of Dangerous Drugs.

Not until Hyomei was discovered has it been possible to truthfully say that a real remedy for catarrh was known.

Hyomei is an oil and its air is breathed through a small inhaler furnished with it for a few minutes four times a day, and during that time every particle of this Hyomei-laden air taken into the air passages and lungs is impregnated with a powerful germ killing and health-giving antiseptic.

Sprays and lotions often cause disorders of the respiratory tracts or bring on some other diseases and never make a permanent cure of catarrh. But when the air of Hyomei penetrates to the inmost air cells of the lungs and enters the blood with the oxygens is not only kills the germs in the throat and nose, but kills the bacilli in the blood, freeing the mucous membranes from poisonous microbes and giving perfect health.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Johnson's Drug Store has so much faith in the merit of Hyomei that they agreed to return the money to any purchaser who is not thoroughly satisfied.

wiped out" said Skinner today in an exclusive interview with a United Press representative. "as long as the situation continues as it is, I am strong for the state veterinarians. Think they are a fine idea and wouldn't want to lose them. But left alone to much, they'll eventually wipe out the stock."

"Let a constructive breeder handle the livestock situation for the state. He has a keen interest in the preservation of stock. When he hears of a disease among a herd, you can bet his action will be promptly to assure the safety of other stock instead of waiting until he has received a culture of the disease." Skinner believes the scientist should work under the orders of a breeder.

Officers of the council are Dr. H. B. Favill, President, Lake Mills, Wis.; H. O. Alexander, vice-pres., Chicago; R. A. Woodhull, Chicago, treasurer.

Among those who spoke were: W. W. Marsh, Waterloo, Iowa; M. D. Munn, St. Paul, Minn.; J. W. Knobbe, H. B. Osgood, G. E. Haskell, W. J. Kittle, Chicago; J. J. Farrell, St. Paul, Minn.; Loton Horton, New York City; H. S. Early, Sycamore, Ill.; Walter West, Elkhorn, Wis.; C. Thomas, Sheboygan, Wis.

FRATERNALISM WARMLY PRAISED

Continued from Page 1.

There are approximately 85,000 members in Indiana."

He said the Odd Fellows lodge had no quarrel to pick with any other fraternal body. He said the lodge was neither the oldest nor the youngest. The grand patriarch declared that the Odd Fellows lodge had no war with any church organization, and expressed the opinion that every other fraternal order would concur in that.

"It (the fraternal order) should not take the place in your heart of the church," he continued. "It was never intended it should. On the other hand, we work hand and hand with the churches. Every lesson taught by Odd Fellowship is taken from the pages of the Bible."

"I believe there is more fraternalism in the United States than in any country in the world. That spirit of fraternalism began when our forefathers landed on these shores and banded themselves together. Not the least of the forces to continue this spirit is our great order."

"If such a fraternal spirit had existed across the water, I do not believe there would have been the great conflict that is now going on. We want the spirit of fraternalism to grow and the Odd Fellows to have a hand in it; that the spirit of fraternalism shall extend across the seas and shall embrace the world."

In introducing Mrs. J. M. Stipp of Michigan City, president of the Rebekah Assembly in Indiana, Edwin Farrer, past grand master, recalled the fight that had been made to get a women's degree in the lodge.

He recalled how four young men, who later became distinguished, were initiated into the Odd Fellows lodge about the same time at different points in the state—General P. A. Hackleman, in Franklin lodge here; Oliver P. Morton, in Hagerstown; Schuyler Colfax, in South Bend; and Sol Meredith in Cambridge City. He remembered how Colfax and Hackleman labored together as

great representatives to the sovereign grand lodge to win the Rebekah degree. He said that when Colfax, the sponsor of the Rebekah lodge, suggested it to the sovereign grand lodge, an elderly member arose and said that when the young gentleman from Indiana had learned as much about women as he had, proved that woman could keep a secret because one had never been found capable of divulging a secret of the lodge, whereas there had been men of that character.

Mrs. Stipp spoke briefly, asserting that the Rebekah degree has done more for women than any other woman's order in the world. She also paid tribute to the work of Grand Master J. T. Arbuckle.

Dr. A. A. Spears, of Brazil, grand warden, said he always knew Rushville was one of the best in Indiana, but that he came from the county of which men are made—Clay. Mrs. Lelah Chesline, treasurer of the Rebekah Assembly, spoke briefly. She said the Rebekah work is founded on the Bible and great stress is laid on the golden rule. She declared the mission of the degree was to promote the spirit of helpfulness and eliminate that of selfishness.

James E. Watson replied in a happy vein in behalf of the class. He said he was but an infant, and like all little ones was all stomach and mouth, but his ways were administered to by the Rebekahs after the degree work.

Mr. Watson said he had been studying the women's degrees in lodges to estimate if possible what effect woman's suffrage would have on the country. He said his observations had been that membership in a woman's degree did not militate in the least against any of the duties of womanhood.

"I have been delighted and charmed by this work this afternoon," he asserted. "The love of one man for another will continue to thrill man as long as the world goes on."

He asserted, in closing, that reforming by-laws will accomplish nothing, but that it remains for man to get on the high plateau of fraternalism to become better.

S. G. Stroup, past grand patriarch of Shelbyville, closed the program by thanking the Odd Fellows of Rushville for their splendid meeting. The benediction was pronounced by the Rev. S. G. Huntington of the First Baptist church.

DOCTOR WANTS RHEUMA FORMULA

An Old-Time Patient Claims Great Benefit From its Use.

The following is clipped from a medical journal of May, 1914, page 186 (name on request): "An old-time patient of mine just informed me that he treated with number of physicians and patent medicines for rheumatism for the past two years without obtaining much relief until taking a preparation called 'Rheuma,' and after taking two or three bottles he claims almost a complete cure. Can you tell me what the formula is?—T. A. M., M. D., Missouri."

Rheuma is manufactured only by the Rheuma Co., Buffalo, N. Y., and is sold by Johnson's Drug Store and all other druggists.

Cases like the above are numerous for many users of this great remedy for rheumatism and find it reaches the disease through the blood, kidneys and bowels, and cleanses the system of the poisonous material.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

QUICK RESULT ASTONISHING TO CARPENTER

Kentuckian Says Tanlac Made Him
Improve Rapidly.

Cincinnati, O., Nov. 4.—Stomach trouble and rheumatism were the twin bugaboos of A. S. Young, a well-known contracting carpenter, who lives at 624 York street, Newport, until he took Tanlac, the "Master Medicine." Now, however, it's different, his former trouble having eliminated by the premier preparation. Mr. Young said:

"I had stomach trouble and rheumatism for a long time and was unable to find relief until I tried Tanlac. I suffered a great deal with pains in the pit of my stomach, dull headaches and nausea. I had very little appetite, and the food that I did eat didn't agree with me. Gas would form in my stomach immediately after eating.

"The rheumatism also caused much annoyance, especially on damp, cool days. My joints and muscles were stiff and ached intensely.

"Tanalac was recommended to me by friends who had benefited by its use. I procured a bottle and began improving almost immediately. In fact, I was astonished at the result. In a short time the stomach trouble had been relieved. My appetite now is good and the headaches and nauseating feeling have disappeared. The rheumatism also has been greatly benefited. Tanlac, in my opinion, is a fine medicine and I'm glad to recommend it to my friends and others."

Tanalac, the Master Medicine, is now sold in Rushville at F. E. Wolcott's Drug Store.
